ABOUT US

Sustainable Labs Canada, founded in 2013, is a volunteer organization of Canadians interested in ensuring that we have sustainable labs in our communities. Our group includes members from the public and private sectors with representation from: academic, hospital and national labs; facility representatives; sustainability experts; design teams; and product specialists.

We are interested in collaborating, sharing knowledge and expertise on everything from new technologies to planning principles, and operational solutions that will make our laboratories some of the most sustainable environments possible.

We are tackling topics such as: air management; design principles; use of hazardous materials; funding challenges; environmental impact; and the use of green technologies just to cover a few of the topics of discussion.

ABOUT US

Mission

Establish Canada as a world leader in advocacy for laboratory sustainability, environmental and social responsibility, and safety through the exchange of knowledge and expertise between collaborators involved from planning through design and operations.

Vision

A world where laboratories stand at the forefront of climate rehabilitation, carbon reduction, and responsible energy usage, emphasizing research efficiency to create a more sustainable world.

Purpose

To facilitate resource-effectiveness and environmental responsibility in designing, engineering, constructing and operating laboratories and similar advanced high-technology facilities.

To support professional development, knowledge exchange and interactive discussion on issues affecting the sustainability of laboratories in Canada by organizing workshops, seminars, and webinars.

To create worldwide partnerships that will promote the development of technologically advanced, energy-efficient, environmentally responsive and sustainable high-performance facilities.

 - ONE complimentary registration for the sponsored Chapter event(s)
 - Corporate logo promoted at the sponsored Chapter event(s)
- The option to provide volunteer resources to support the various working Committees and/or technical expertise to bolster the educational program development

SLCan will offer a maximum of FIVE annual national sponsorships per year. Additional sponsorship opportunities are available through the Chapters and National Conference.

2026

THANK YOU!

On behalf of the membership, the National and Chapter Boards, and the dozens of volunteers, we appreciate your interest in supporting Sustainable Labs Canada. Should you choose to become one of our Annual National Sponsors, your contribution will directly support the continued expansion of SLCan's professional development and education programs, allow for new member benefit programs to be explored and, ultimately, grow the value that SLCan provides to the sustainable laboratory community nation-wide.

See you at our next event!
