

Ottawa Chapter

Call for Proposals

The Ottawa Chapter of Sustainable Labs Canada (SLCan) is pleased to launch a Call for Proposals for their in-person Knowledge and Networking Events. The Chapter Knowledge and Networking Events are held quarterly in the evening and includes a meal and networking opportunities.

Proposals are due by **Monday, March 30, 2026**.

Call for Proposals

The Chapter Knowledge and Networking Events provides a forum for your local sustainable laboratory community to learn about technical, scientific and organizational innovations, and best practices for the design, management and supply of laboratory facilities.

To provide attendees with unique learning opportunities, proposals featuring multiple, and possibly differing, perspectives (i.e., owner, contractor, user, researcher, research operations, etc.) will be prioritized for inclusion in the 2026 schedule. Proposals must include the full list of presenters/panellists and the expertise/perspective that each one will address as part of the discussion. In-person participation is mandatory for all presenters/panellists – no virtual presentation option is available.

Additional considerations include:

- Is the information being presented new?
- Will you give the audience an "ah-ha" moment?
- Are you bringing more than architectural and/or engineering perspectives to the discussion?

Duration

35-45 minute presentation plus Q&A.

Audience

SLCan's membership comprises of S&T design professionals, including architects, structural engineers, mechanical engineers, electrical engineers, lab equipment vendors, lab contractors and constructors, lab owner/operators, institutional client representatives, and S&T enthusiasts.

Submission Instructions

Please submit your abstract to ottawa@slcan.ca by **Monday, March 30, 2026**.

Your submission should include:

- Presentation title and abstract
- Presenter list with contact information, bio and headshot

All submitted proposals will be shared with the SLCAN Ottawa Chapter for review and consideration. If selected, presenters will receive confirmation via email.

Confirmed presenters will receive a complimentary registration for the event.
